Sydney, Australia, 2017-Jul-20 — /EPR Network/ — Peta and Stephen Hewett have been chosen to join a collection of Australia's leading experts, to co-author the forthcoming book titled, "Think Big: How to Thrive in Life and Business in a Rapidly Changing World!".

Stephen Hewett has been chosen to feature on the cover of the book alongside Arnold Schwarzenegger, who says "If you're going to accomplish anything you have to think big and shoot

for the stars. The biggest challenge most people face is they're thinking small. I would still be in Austria yodeling in the Alps...I tell you...Think Big".

Stephen Hewett attended Toowoomba Grammar School and was a member of the Swimming and Rugby Team. Stephen was popular and always had friends around him. With a quick wit and great sense of humor, his stories and reflections are entertaining and comical. At 21 years of age Stephen was the passenger in a near fatal car accident that left him in a coma for 7 weeks and needing in-hospital rehabilitation for 7 months. With rehabilitation still continuing today, twenty years later.

In this upcoming book, for August 2017 release, Stephen Hewett shares his details when he left his body at the accident scene and during his hospital stay. He actually died 'officially' twice in the operating theatre, but was resuscitated by the brilliant medical professionals attending to him, and perhaps because it wasn't his time to go.

Stephen Hewett speaks about his after death experiences, and the persistence and resilience he needed to rehabilitate which empowered him to get back to a productive life. The power of the mind, and the power of Teamwork. Stephen continues to receive invitations from people and groups interested in being motivated to succeed, after death experiences, prevention of road deaths amongst young people, and the dangers of alcohol abuse.

Peta Hewett has a Diploma of Teaching-Secondary and has written high school programs and courses, as well as poetry. Her career is as diverse as her writings, from high school and TAFE teacher to personal assistant, secretary, front office manager in charge of 30 Staff, event's organizer and administrator, worked on itineraries for speakers, catering, teaching courses in Christian churches, pizza delivery driver, youth group leader & youth counselor. Peta Hewett's writing is factual, personal and educational and explores the 'why' of life's questions.

"Think Big" will feature the authors' secret strategies that have shaped their lives attitudes to business.

"Think Big: How to Thrive in Life and Business in a Rapidly Changing World!". No matter what line of work you're in, the marketplace constantly challenges you. No matter how savvy an entrepreneur or skilled a professional you are, you risk losing ground every day you don't push forward. That's why you need every advantage possible to achieve the prosperity you're after. The royalties from this project will be given to The Rights of Girls Initiative, a not for profit organization dedicated to saving little girls in Africa from FGM. The book is planned for release in August 2017, and will be the first in a series of books entitled "Think Big" produced by Celebrity Book Club.
